PHS Announces Discontinuation of District Covid-19 Dashboard & Risk Dial

Governor Ricketts has ended Nebraska’s Coronavirus State of Emergency as of 06/30/2021. This ends most (not all) executive orders associated with the state of emergency and DHHS has now removed the statewide coronavirus dashboard on their website. For more information on this action, please visit the Governor’s website at:

<https://governor.nebraska.gov/press/gov-ricketts-ends-coronavirus-state-emergency>.

Effective today, PHS will remove the Covid-19 District Risk Dial and Data Dashboard from our website. A chart with current Covid-19 case counts and positivity rates will be updated and posted every Friday by 9:00 a.m. on our website. PHS will no longer issue a weekly press release. Should the community risk level change significantly or if an isolated outbreak is identified within the district, a media release will be issued immediately and updates will be provided on our social media and website.

With coronavirus variants being identified across the state, PHS urges everyone eligible to become vaccinated. This is the best protection against becoming severely ill if exposed to Covid-19. To find a vaccination site near you, please call PHS at 402-826-3880.
